Professional Summary

Full Stack Developer with professional experience building scalable enterprise web applications using React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, and TypeScript. Skilled in designing RESTful APIs, implementing Role-Based Access Control (RBAC), Azure AD authentication, workflow automation, and database optimization. Experienced in delivering production-ready applications in Agile environments.

Education

Baba Banda Singh Bahadur Engineering College

Jul 2021 – Jun 2025

Bachelor of Technology in Computer Science Engineering

CGPA: 7.8/10

Experience

Full Stack Developer

May 2026 – Present

We Promote India Pvt. Ltd.

Mohali, Punjab

- Developing a custom Enterprise Human Resource Management (HRM) platform using React.js, Node.js, Express.js, PostgreSQL, Prisma ORM and Joi.
- Designed secure RESTful APIs with Role-Based Authentication and Authorization (RBAC) supporting Admin, HR, Managers, Editors and Employees.
- Implemented attendance management, payroll, leave management, employee lifecycle, task assignment, project management and approval workflows.
- Built complete production workflow covering client onboarding, credential management, mood boards, content calendars, shoot scheduling and editor pipeline.
- Optimized PostgreSQL queries and backend services while collaborating with cross-functional teams using Agile methodologies.

Freelance Full Stack Developer

Jan 2026 – Apr 2026

Self Employed

Remote

- Developed custom full-stack web applications using React.js, Node.js, Express.js, PostgreSQL and MongoDB.
- Designed scalable REST APIs, secure authentication systems and responsive dashboards tailored to client requirements.
- Managed complete software lifecycle including requirement analysis, development, deployment and production support.

Full Stack Developer Intern

Jul 2025 – Dec 2025

InterraIT India Pvt. Ltd.

Noida, Uttar Pradesh

- Developed and maintained the enterprise application **Pin Pa** for project tracking, resource allocation and approval workflows.
- Designed scalable RESTful APIs using Node.js, Express.js, Prisma ORM and PostgreSQL.
- Integrated Microsoft Azure Active Directory (MSAL) authentication with secure Role-Based Access Control (RBAC).
- Implemented automated email notification workflows using Nodemailer and optimized PostgreSQL queries for improved backend performance.
- Collaborated with cross-functional Agile teams to deliver production-ready enterprise software.

Projects

Enterprise Human Resource Management System (HRM) | *React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Joi*

- Developed a full-stack enterprise Human Resource Management (HRM) platform supporting Admin, HR, Managers, Editors and Employees with secure Role-Based Authentication and Authorization (RBAC).
- Built attendance management, payroll, leave management, employee lifecycle, task assignment, approval workflows and employee management modules with scalable RESTful APIs.
- Designed a complete production workflow where HR/Admin creates projects, Managers collect client credentials, upload mood boards, prepare content calendars, assign shoot teams and forward raw assets to editors.
- Implemented backend validation using Joi, optimized PostgreSQL database queries with Prisma ORM and developed secure API architecture for enterprise-level scalability.

Pin Pa (Enterprise Project) | *Angular, Node.js, Express.js, PostgreSQL, Prisma ORM, Azure AD*

- Developed backend architecture for enterprise project tracking, resource allocation and approval workflows.
- Designed secure RESTful APIs using Express.js, Prisma ORM and PostgreSQL for scalable business operations.
- Integrated Microsoft Azure Active Directory (MSAL) authentication with Role-Based Access Control (RBAC).
- Implemented automated email notification workflows using Nodemailer and optimized backend performance through efficient database queries.

3D Portfolio Website | *React.js, Three.js, GSAP, Tailwind CSS, Vite*

- Designed and developed a fully responsive portfolio website featuring interactive 3D elements, GSAP-powered scroll animations and smooth user interactions.
- Implemented modern UI/UX principles, responsive layouts and optimized performance to showcase projects and technical expertise.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL, Python

Frontend: React.js, Angular, Redux Toolkit, HTML5, CSS3, Tailwind CSS, GSAP, Three.js, Vite

Backend: Node.js, Express.js, RESTful APIs, Prisma ORM, Joi, Nodemailer

Databases: PostgreSQL, MongoDB

Authentication & Security: JWT, Azure Active Directory (MSAL), Role-Based Access Control (RBAC), Authentication, Authorization

Tools & Platforms: Git, GitHub, Docker, Postman, Vercel, Render, VS Code

Core Concepts: Data Structures, Object-Oriented Programming, SDLC, Agile Methodology, Database Design, API Development, Workflow Automation, Performance Optimization
